ABOUT US

DERHAN INTERNATIONAL TRADE FZE With over 38 years of production experience, it stands out as a comprehensive supplier of industrial spare parts for various industries.

As a team specialized in foreign trade, we aim to provide our customers with the best quality products and excellent service.

We have extensive experience in supplying all types of industrial spare parts such as engines, gearboxes, large gears, electronics, valves and more. In addition, we provide services to our customers in the production of Power and Motion Transmission Parts for Mill Machinery manufacturers and many industrial applications.

The strong relationships we have with the world-famous brands we cooperate with enable us to confidently offer original products equipped with the latest technology to meet the needs of our customers.

WHY CHOOSE US?

- **Wide Product Range:** You can find all kinds of industrial spare parts you need under one roof. Working with brands that offer a wide range of products allows us to offer comprehensive solutions to our customers.
- **Quality Assurance:** Customer satisfaction and quality are the basis of our business. All of our supplied products go through stringent quality control processes to ensure compliance with international standards.
- **Fast and Reliable Delivery:** We optimize our supply chain to support our customers' business continuity. Your orders will be fulfilled quickly and safely.
- **Expert Support Team:** We have a support team ready to answer your questions, understand your needs and offer you the most suitable solutions.

“It does what we know best; We are moving towards the future in the light of our virtuous and honest principles...”
